*Automatic annual rate adjustment.* The city will institute annually, effective with bills rendered on and after October 1, 2008, and each year thereafter an automatic increase to the monthly service availability charges and volumetric rates as contained in section 21-223(b), to be applied to such rates which are in effect immediately prior to the effective date of each annual increase. The annual index adjustment shall be one (1) percent, to the monthly service availability charges and volumetric rates for the eastern service area. With respect to the wastewater treatment service from the City of Hollywood and others, on behalf of the eastern city area, any increase or decrease in the cost of such purchases to the city shall result in an automatic adjustment to such applicable rates as identified in section 21-223(b), and shall be a pass-through to the consumer equal to the dollar amount of such increase or decrease in such costs as billed by the City of Hollywood or others as determined by the city. All other adjustments in excess of those identified above will be changed by a resolution as adopted by the City Commission.
