

DO YOU WANT TO KNOW THE ANSWERS TO THE FOLLOWING QUESTIONS?

Am I required to connect to the new sewer system?

When do I need to connect to the new sewer system?

Do I need permits to connect to the new sewer service lateral?

What is required to be done with the existing septic tanks? Do they have to come out of the ground or just be emptied?

Do I have to pay to be connected to the new sewer system?

How much is the monthly cost?

How much is an estimated cost to run the lateral from the house to the sewer connection at the property line?

Will the City provide funding options for residential property owners to pay for the connection to the sewer system?

Will the City designate a plumbing company to do the sewer connection?
