Accordingly, it is in the best interest of the parties to develop a policy regarding drug and alcohol testing in order to create and maintain a drug free workplace.

Section 2. Accordingly, the City maintains the right to implement a drug-free workplace policy in accordance with Florida law. The Union agrees to the general collection and testing procedures outlined in the City's drug-free workplace policy.

Section 3. The Union agrees that the City has the discretion to order "for cause" drug and/or alcohol testing, by a testing method determined by the City to be most appropriate, when the following circumstances are present:

- a. In the event an employee is reasonably suspected by the City of impaired behavior while on duty
- b. In the event of a vehicle accident, the employee-driver may be subject to "after accident" testing, regardless of whether the employee sustained injury.

In case of "for cause" testing, a written statement setting forth the basis of the reasonable suspicion shall be provided to the employee and to the Union as soon as possible but in no case later than 24 hours after the test.

Section 4. Random testing procedures: The City shall develop and maintain a consistent testing procedure. The Union agrees that all members will be subject to testing. One employee may be tested weekly under the following guidelines:

- a. The City must conduct all random testing while employees are on duty. The City chooses either Monday or Thursday for the test to be conducted.
- b. Employees to be tested shall be selected by a random number generator computer program. If the employee chosen is not on duty, names will be drawn until an on-duty employee is selected. The selection will occur at a fixed time of day whereby one union member will be allowed to be present.
- c. Random testing will be limited to urine and/or breath analysis. Hair follicle testing will not be conducted as part of the random test.

Section 5. Policy following a positive random drug test: In the event that an employee tests positive for drugs after a random test, the City agrees that the employee will not be automatically disciplined if the following circumstances are present:

- a. The employee immediately acknowledges a substance abuse problem and requests treatment via the Employee Assistance Program (EAP) or other program approved or mandated by the City.
- b. The employee's impairment did not result in any type of bodily harm or negligence of any other parties.
- c. The employee has no prior record of substance abuse or inappropriate behaviors arising out of such abuse.
- d. Upon notification of a positive test result, the employee discloses recent use of legal prescription drug where the amount of drug and/or alcohol found does not cause impairment, in the opinion of a licensed physician selected or approved by the City.

Section 6. Policy following random positive alcohol breath analysis: In the event that an employee tests positive, the same terms of agreement stated in Section 5 will apply. A confirming follow-up test using blood will be conducted.

Section 7. The Employee Assistance Program (EAP) will be available to any employee at all times, by self-referral or supervisor referral to assist in substance abuse counseling and/or treatment.

ARTICLE 36
Workers Compensation and Disability

Section 1. Any unit member, who is injured in the performance of their duties with the CITY, shall be entitled to worker's compensation benefits in the following manner:

a. The CITY shall pay to the unit member full pay and benefits, as per the unit member's normal work schedule, for a period of 180 consecutive calendar days from the date of injury, provided there is competent medical evidence which indicates a reasonable expectation that the injured employee will, within a reasonable period of time, reach a level of medical improvement sufficient to resume full normal duties. This full pay benefit shall cease upon the earlier of either the expiration of 180 consecutive calendar days after the date of the injury, or the date of overall maximum medical improvement.

b. Full pay shall be defined as the unit member's regular prevailing rate of pay.

c. At the expiration of the 180 days of full pay provided in Subsection 1 above, if the unit member has not reached a level of medical improvement enabling the member to return to full duty service, demonstrable by competent and substantial medical evidence, the City shall have the right to require the injured member to perform any task or service in any capacity, including any other department within the City or terminate his/ her employment. The City shall have the right to rely on the medical opinion of its expert. To the extent that the injured member is capable of performing in an alternative capacity as provided above, the employee shall be compensated at the employee's regular rate of pay with full benefits, for a period not exceeding one year. However, the City, in its sole discretion, may terminate the employee if he/ she is unable to return to full duty after the expiration of the one year full pay period, performing in an alternative capacity, as stated in Subsection 1 above. After being terminated by the City the unit member may be eligible to receive long-term disability under the City's plan.

d. Employees sustaining on-the-job injuries shall, at the time of injury, or as soon thereafter as possible, prepare a Medical Release form allowing any and all disclosure of medical diagnosis, treatment, prognosis or any other medically related information relating to that specific injury. The fully executed release shall be provided to the City upon its request within 72 hours. Failure of the employee to timely provide the signed release shall preclude the employee from receiving his full pay benefit during the period of refusal to provide the release.

e. Any employee of the bargaining unit who suffered an injury which might be compensable under the terms of this article, shall submit to such physical, physiological or other examinations, by City authorized doctors as may be required to ascertain the extent of the injury, prognosis and degree of disability, if any, as requested by the City.

f. Catastrophic Injury Benefits: Notwithstanding the above, the parties agree that should a unit member suffer one of the injuries enumerated in Fla. Stat. 440.15 (1)(b), the full pay benefits provided above shall be extended from 180 consecutive calendar days for a period of not more than two full calendar years from the date of the injury. In addition, the parties agree that should the unit member suffer one of the enumerated injuries and not be medically able to return to full duty work as a unit member during the two year period, but has been released for light duty work, the City shall have the right to require the injured member to perform any task or service in any capacity including any other department within the City or terminate his/ her employment.

The two year full pay benefit under this subsection is available to any unit member who suffers an injury defined by Fla. Stat. 440.05 (1)(b) including:

1. Spinal cord injury involving severe paralysis of an arm, a leg, or the trunk;
2. Amputation of an arm, a hand, a foot, or a leg involving the effective loss of that appendage;
3. Severe brain or closed-head injury as evidenced by;
 - a. Severe sensory or motor disturbances;
 - b. Severe communication disturbances;
 - c. Severe complex integrated disturbances of cerebral function;
 - d. Severe episodic neurological disorders; or
 - e. Other severe brain and closed-head injury conditions at least as severe in nature as any condition provided in sub-paragraphs a-d.;
4. Second-degree or third degree burns of 25 percent or more of the total body surface or third –degree burns of 5 percent or more of the face and hands; or
5. Total or industrial blindness.

The City's authorized Medical Provider shall determine whether or not a particular incidence of injury or illness falls within the categories of Fla. Stat. 440.15(1) (b).

Notwithstanding the above, unit members receiving workers' compensation indemnity payments shall not receive a total of such payments which, when combined with salary, total more than the employee's average weekly wage as defined in Chapter 440, Florida Statutes.

Section 2. If a unit member qualifies for benefits under the City's long-term disability insurance policy, the following rules shall apply:

- a. On the 181st day of consecutive disability, the unit member shall elect whether to receive disability payments under the City's insurance policy or to receive payments pursuant to a salary continuation plan as described herein during the term he/she receives disability benefits. Although the election need not be made until the 181st day, the unit member should be aware that all-necessary steps to qualify for the City's insurance benefits must be taken upon elections. An application for such benefits should be submitted prior to the 181st day of disability in order to ensure that there is continuity in the payment of benefits. The failure of the unit member to make an election on the first [1st] day will result in the City's assumption that the unit member has elected to receive payments under the City's salary continuation plan.
- b. If the unit member elects to receive disability payments from the City's insurance policy, the City will not pay sick leave or vacation benefits during the unit member's term of disability. However, the City shall compute the date on which the unit member's sick leave and vacation benefits would have expired if the unit member were receiving such benefits. On such date, if the unit member is not able to return to work, his/her continued employment shall be governed by Article 12 of this agreement. A unit member, who returns to work after receiving disability payments from the City's insurance policy, shall retain all unused vacation and sick leave benefits accrued prior to the time the unit member began to receive disability insurance.
- c. A unit member, who elects to receive payment under the City's salary continuation plan, shall be paid in an amount equal to their regular wages to a specific date, which date shall be the date that they would be entitled to full payment for sick leave and vacation time. After such date, the City will pay no compensation to the unit member. On such date, a unit member, who is unable to return to work, shall be governed by the terms of Article 12. A unit member, who is still disabled after exhaustion of all leave of absence benefits, shall be terminated from employment with the City. The payment of compensation pursuant to the salary continuation plan will have the effect of exhausting sick leave and vacation benefits. After being terminated by the City the unit member shall be eligible to receive long-term disability under the City's plan.
- d. A unit member, who is disabled for a period in excess of 15 days, shall file with the City a certificate from a physician certifying such disability.
