New Construction Commercial & Residential Package

Who Can Apply

A. Licensed Contractors: Licensed Contractors as per Florida Statutes Chapter 489, and Broward County Construction Licensing. Contractors shall be properly registered in the Building Division, providing the updated licenses & insurances.

Required Documents

Disclaimer: Because of proposed projects vary widely respect to different procedures and the way to be completed, the information shown below does not necessarily reflect all requirements needed for permit application. This information is intended only for minimum guidelines about how to proceed with the application for permit. **As per Florida Building Code**, the construction documents shall be of sufficient clarity to indicate the location, nature and extent of the work proposed and show in detail that it will conform to the provisions of this Code and relevant laws, ordinances, rules, and regulations, as determined by the **Building Official**. Therefore, it will be the entire responsibility of contractors/applicants to provide all required documentation to apply for permit.

- FOR REVIEW PROCESS THE FOLLOWING ARE REQUIRED:**
- FOUR (4) SETS OF PLANS SIGNED & SEALED BY PROFESSIONAL DESIGNER (PROF. ENGINEER, REGISTERED ARCHITECT).
 - A COMPLETE AFFIDAVIT OF IDENTICAL DOCUMENTS IS REQUIRED FOR ENGINEERED PLANS & CALCULATIONS SUBMITTED WITH DIGITAL SEAL & SIGNATURE OF A PROFESSIONAL ENGINEER OR REGISTERED ARCHITECT. (INCLUDED IN THIS PACKAGE).
 - CONSTRUCTION COST – SCHEDULE OF VALUES PER DISCIPLINE, INCLUDING LABOR, MATERIALS & EQUIPMENT. AS PER FBC 109.3, THE BUILDING OFFICIAL MAY REQUIRE ADDITIONAL DOCUMENTS TO BE USED IN THE PERMITTING VALUATION.
 - ALL APPLICATION FORMS BASED ON THE SCOPE OF WORK (*):
***OTHER APPLICATION FORMS MAY BE REQUIRED BASED ON THE PROPOSED WORKS AND PLANS.**

REQUIRED DOCUMENTS	
<input type="checkbox"/> ENERGY CALCULATIONS	<input type="checkbox"/> 30-DAY ELECTRICAL APPLICATION.
<input type="checkbox"/> COOLING/HEATING LOAD CALCULATIONS	<input type="checkbox"/> TWO (2) SPECIAL INSPECTOR FORMS (ORIGINAL SIGNED & SEALED BY PROF. ENGINEER)
<input type="checkbox"/> ONE (1) SET OF GEOTECHNICAL REPORT (ORIGINAL SIGNED & SEALED)	<input type="checkbox"/> BROWARD COUNTY ENVIRONMENTAL REVIEW CERTIFICATE
<input type="checkbox"/> ONE (1) SET OF STRUCTURAL CALCULATIONS (ORIGINAL SIGNED & SEALED)	<input type="checkbox"/> BROWARD COUNTY TRANSPORTATION CONCURRENCY CERTIFICATE

DEVELOPMENT AND ENVIRONMENTAL REVIEW GUIDE

DEVELOPMENT & ENVIRONMENTAL REVIEW APPROVAL

As part of the Broward County Development and Environmental Review (DER), the Environmental Review Approval is an important step in the process of obtaining a building or construction permit in Broward County.

Review and approval from the Resilient Environment Department (RED) and Urban Planning Division (UPD) serves as verification that all required environmental licenses and pending environmental enforcement issues related to the County's Natural Resource Protection Code (the Code) have been resolved. Environmental operation licenses which will be required at the completion of the project are also identified.

Applicants are required to complete an online application and upload construction plans for review. Once an application is approved, applicants will be instructed to pay any associated impact fees and environmental review fees to receive the Transportation Concurrence certificate and Environmental Review certificate. DER must be completed entirely online through Broward County's ePermits System at www.broward.org/ePermits. Paper plan submittals are no longer accepted, and all plans must be submitted electronically for review online. Most evaluations require payment of an impact or review fee. The size and nature of the project dictate the fee which cannot be determined until review of the project is completed. Fees for DER approval may be paid by E-Check, check or credit card (environmental only). Checks can be mailed to the address at the bottom of this guide.

The DER approval certificates expire within ninety days of approval, if not submitted to the relevant municipal or county agency.

In general, projects requiring a specific RED license for construction of a new project or modifications to an existing facility must first obtain that license before DER approval is granted.

PROJECTS WHICH REQUIRE DEVELOPMENT & ENVIRONMENTAL REVIEW APPROVAL

BUILDING CONSTRUCTION

- All new building construction, residential or non-residential
- All additions to non-residential buildings
- All interior alterations to industrial buildings or warehouses if a building permit is required
- All interior alterations to commercial or office buildings where a change in use or seating capacity will occur or where the building has been vacant for six months or more if a building permit is required
- Final interior construction of existing shell buildings if a building permit is required
- All foundations or slabs

SITE PREPARATION AND INFRASTRUCTURE

- New construction or expansion of all roads and bridges
- Land clearing and grubbing
- Fill for areas located in or near wetland zones
- Wireless antennas & equipment
- Tree removal in the Broward Municipal Services District (BMSD - formerly known as Unincorporated Broward County) and certain municipalities (see page 4)
- Construction of docks, sea walls, boat ramps and bulkheads
- Commercial driveways and parking lots
- All drainage projects, including those in independent drainage districts

OTHER IMPACTS

- Conversion from septic tank to city sewer
- All new or replacement emergency generators, excluding portable generators
- All landfill and solid waste transfer facilities
- All new commercial or multifamily swimming pool construction
- Installation or modification of above or below ground storage tank systems
- Temporary buildings and construction trailers

PROJECTS WHICH DO NOT REQUIRE DEVELOPMENT & ENVIRONMENTAL REVIEW APPROVAL

- Interior renovation to individual condo units
- Additions or interior remodeling of a home with no increase in the number of dwelling units (except for locations in the BMSD)
- Residential emergency generators
- Residential fences
- All work to residential swimming pools
- Residential slabs
- Residential solar panels
- Residential balcony enclosures
- Residential driveways
- Carports for single family residences (except for locations in the BMSD)
- Screen porches on existing slabs
- Condo conversion that do not include the installation or replacement of cooling towers/ chillers or emergency generators
- Traffic striping
- Billboards
- Demolition only (nothing being built, repaired, and or replaced)
- Tree Trimming (excluding mangroves)
- Landscaping
- Utility pole installation
- Well construction
- Installation of compressed gas tanks
- Painting of buildings
- Sand blasting and pressure cleaning
- Sidewalk installation and replacement
- Re-roofing projects
- Installation of fire suppression systems
- The installation of outdoor recreation equipment such as swings and slides
- Routine maintenance of grounds and equipment
- Installation of security, telephone, intercom, and public-address systems
- Septic tank and drain field repair
- Construction or installation of signs
- Improvements to mobile homes
- Placement of mobile homes on existing slabs
- Routine maintenance
- Electrical installations which do not involve the installation of pollution control equipment
- Installation of lawn sprinklers
- Installation of residential satellite dishes and TV antennas

ENVIRONMENTAL EVALUATIONS MADE DURING THE APPROVAL PROCESS

WASTEWATER TREATMENT PLANT CAPACITY

Any project generating a wastewater flow will be reviewed to ensure sufficient capacity exists at the wastewater treatment plant serving the project. If the proposed project would put the associated wastewater treatment plant over capacity, or in any other way violate the treatment plant's license, DER staff may withhold approval until evidence is available that the wastewater treatment plant can accommodate the additional capacity.

AVAILABILITY OF A WASTEWATER COLLECTION SYSTEM

A wastewater collection/transmission system project is one involving construction, modification, expansion, or replacement of sanitary sewers, sanitary manholes, sanitary force mains, or pump stations. Under limited circumstances, a project may be allowed to proceed to the building department even if the wastewater collection system is not yet approved by the Environmental Permitting Division (EPD). Such conditional approval relies on a determination that construction will not adversely affect the environment, that necessary land development licenses have been obtained, and the applicant has agreed that no certificate of occupancy will be issued until the wastewater collection system is completed and certified in accordance with Section 27-199(c) of the Code. Release of this conditional approval will be granted only after EPD has reviewed as-built drawings and has determined that the design has been installed/constructed in compliance with current County code and State regulations.

WELLFIELD PROTECTION

For new construction and all industrial and commercial projects, a determination is made regarding location with respect to drinking water supply wells. If staff determines that the project is in a protected wellfield zone, the project is referred to EPD for possible licensing. If such a license requirement is confirmed, DER approval will not be granted until a complete application for a wellfield protection license has been received by EPD.

STORAGE TANK LICENSING

All projects are reviewed to determine the presence of regulated storage tank system(s). A regulated storage tank system includes any above or under-ground tank used to contain hazardous materials as defined in the Code. If such a tank is present, a valid storage tank license is required in accordance with the requirement in Section 27-306 of the Code in order to obtain DER approval. A storage tank facility license shall be required to build, erect, operate, modify, maintain out-of-service status, close or replace in whole or in part any storage tank system that is intended to contain hazardous material unless otherwise exempted by the code.

AIR FACILITY LICENSE

All projects are reviewed to determine if a Broward County Air License or State of Florida Air Permit is required. An air facility is a business or project which emits or has the potential to emit certain air contaminants as defined in the Broward County, Florida – Code of Ordinances / Chapter 27 – Pollution Control / Article IV – Air Quality and the State of Florida Administrative Code Chapter 62-4 Permits. All air facilities are referred to the Natural Resources Division (NRD) for either licensing or permitting as required by the above county or state environmental codes. Air facilities may be subject to air license or air permit applicable requirements, are subject to criteria used for issuance or denial of authority to construct, modify or operate or may be exempt. DER approval will not be issued for construction, modification, or operation of the air facility until the appropriate license or permit is issued or is exempted by the NRD.

PARKING FACILITY LICENSE

All projects are reviewed to determine if the proposed number of parking spaces are greater than the parking facility license thresholds: Construction or modification that will result in 400 spaces or more for a parking facility that may degrade or exceed the National Ambient Air Quality Standards (NAAQS) for carbon monoxide as determined by NRD, 750 spaces or more for parking garages and 1,500 parking spaces or more for surface parking lots or 1,000 or more for a single or multilevel parking facility. The associated air impacts from the increased vehicular traffic must be considered in the review. The project is referred to the NRD for evaluation and NRD will notify the applicant and the DER Section if a license is required under Section 27-176(c) of the Code and identify any conditions the project must meet prior to proceeding.

SPECIAL AREAS OF CONCERN

If a project lies within a special area of concern as defined in the Code, the project will be referred to the EPD for evaluation. These areas include Natural Resource Areas, Local Areas of Particular Concern, and other protected areas. DER approval will not be granted until the EPD notifies the DER staff that the project complies with the requirements of Section 27-67 (d) of the Code.

CONTAMINATED SITES

Every application for new construction is reviewed to determine if the site overlies or is adjacent to a site for which there is evidence that some prior release or discharge of pollutants has required assessment or possible remediation. In such a case, the project is referred to the EPD for evaluation. If this evaluation determines that the proposed project will not adversely affect cleanup of the site in accordance with Section 27-66(g) of the Code, notification is made to the DER staff so that the DER approval process may continue.

ENFORCEMENT ACTIVITIES

Every project is reviewed for current or outstanding enforcement actions. If the project is found to have an outstanding enforcement issue, the project is referred to the Consumer Protection Division (CPD) for evaluation in accordance with Sections 27-66 (k) and 27-55(d) (1), (6) and (7) of the Code. Upon resolution of enforcement matters, the CPD will notify the DER staff in writing to allow the project to continue through the approval process.

ENVIRONMENTAL RESOURCE LICENSE

All projects are reviewed to determine if an Environmental Resource License is necessary. Such projects may involve 1) clearing of vegetative overgrowth, 2) impacts to wetlands, 3) dredging and filling activities, 4) construction or installation of docks, pilings, jet ski lifts, floating vessel platforms and bridges, 5) pond, lake or canal filling and/or excavation, 6) trimming or alteration of mangroves, and any other water-related activities. These projects must obtain

a license from the EPD in accordance with Article XI of the Code. DER approval for such a project will not be granted until the project receives review and a license (if required) from the EPD.

SURFACE WATER MANAGEMENT LICENSE

Each project is evaluated to determined jurisdiction for drainage. Projects in the EPD jurisdiction that are non-residential or residential and larger than a duplex must meet the drainage criteria set forth in Section 27-200 of the Code. Those projects will be referred to EPD for evaluation and may require a Surface Water Management License. DER approval for such projects will not be granted until a license is obtained from EPD.

SEPTIC TANKS

Projects are reviewed to determine if the use of septic tanks is appropriate. Notify the Florida Department of Health for all projects involving septic tank systems and other onsite sewage treatment and disposal systems.

HAZARDOUS MATERIAL LICENSE

All non-residential projects are reviewed to determine if a Hazardous Material License will be required after the project has been completed. If a determination is made that such a license may be required, the applicant is notified of their responsibility to obtain this license in accordance with the requirements in Section 27-356 of the Code. Projects for existing facilities that appear to need a Hazardous Material License may be referred to the EPD, Pollution Prevention section to determine if either a valid license exists or a license application is on file. The project may not receive DER approval until an appropriate application is received by EPD.

TREE PROTECTION LICENSING

If trees will be removed, relocated, or replaced and the project is in the BMSD or in a municipality where Broward County has jurisdiction, the project will be referred to the EPD for licensing and/or approval in accordance with Section 27-401 thru 414 of the Code. DER approval will not be granted until the EPD license or approval is obtained.

Municipalities where Broward County has jurisdiction include:

- Hillsboro Beach
- Lauderdale by the Sea
- Lauderdale Lakes
- Lazy Lake
- Lighthouse Point
- North Lauderdale
- Pembroke Park
- Sea Ranch Lakes
- Wilton Manors

OTHER LICENSE REVIEW CHECKS

In addition, all projects are assessed to determine the need for other licenses including solid waste and industrial transfer station licenses. If a license is required for construction of a facility in any of these categories, the applicant will be referred to the appropriate RED for further evaluation. DER approval will not be granted until all appropriate licenses are issued.

For Development & Environmental Review,
complete the online application via our website at:
Broward.org/EPermits

Development & Environmental Review Applications
can be submitted from any computer with internet
access.

The benefits of e-Permits:

- ✓ No paper forms to complete
- ✓ Work online any time, day or night
